

Anil Choudhary

Cloud Solution Architect

Jaipur, Rajasthan, India • +91-9967606557 • rassti007@gmail.com • linkedin.com/in/wayanil

WORK EXPERIENCE

Accenture Ltd., Jaipur, India 11/2015–Present

Led and built secure, production-grade Azure platforms powering AI initiatives like ARC and GenAI.

Cloud Solution Architect(2021-Present) 05/2021–Present

↳ **Technical Architect (2015-2021)** 11/2015 – 05/2021

- Led and stabilized Azure and AKS platforms across 12+ high-risk programs, setting reusable standards and guiding technical decisions with stakeholders.
- Led the cloud migration of 100+ applications to Azure and AWS, realizing a 35-40% reduction in infrastructure and operational costs.
- Delivered OpenAI-driven automation that cut manual operational effort by 30% and incident triage time by 40%.
- Built secure Azure landing zones using Management Groups, Subscriptions, Azure Policy, RBAC, and Entra ID, ensuring full regulatory compliance with zero security incidents and security operations.
- Engineered CI/CD pipelines using Azure DevOps and GitLab, supporting containerized workloads and AKS deployments, reducing time by 60%.
- Progressed from cloud engineer to IaC build lead, spearheading enterprise cloud architecture and mentoring 100+ engineers across global engagements.
- Drove cloud strategy, collaborating with 40+ cross-functional teams to align cloud architecture with business, cost, and operational goals.
- Recognized for cloud expertise and promoted to Cloud Solution Architect after 04 years as Technical Architect....

Wipro Ltd., Mumbai, India 08/2014 – 11/2015

Cloud & Platform Architect – Majority Application Landscape, Mumbai Airport

Team Lead

- Streamlined DevOps practices via CI/CD pipelines and IaC-driven automation, reducing average deployment time by 60%. Created scalable cloud architectures on Azure and AWS, resulting in zero high-severity security incidents.
- Optimized cloud architecture with resilient Azure designs and AKS high-availability patterns, improving application uptime to 99.95%.
- Collaborated with cross-functional teams to ensure seamless cloud integration, improving policy compliance to 98%.
- Implemented cloud cost optimization initiatives through right-sizing and PaaS adoption, delivering 20-30% cost savings.

Kale Logistics Pvt. Ltd., Mumbai, India 06/2011 – 08/2014

Senior Software Engineer

- Designed and implemented enterprise-grade solutions using N-Tier architectures, improving application scalability by 3x under peak load.
- Reduced application response times by 20-25% by implementing standardized N-Tier architectures with improved modular design.
- Modernized workloads for Azure by enabling App Service and VM-based hosting and implementing stateless design patterns, reducing deployment effort by 40%.
- Led and mentored junior engineers on N-Tier design and .NET/SQL development, reducing post-release defects by 25%.

Software Developer, Alives Software, Delhi, India 08/2009 – 05/2011

EDUCATION

Bachelor's of Engineering in Computer Science (Rajasthan University, Jaipur, Rajasthan)

SKILLS & Other

Cloud Technologies: Azure (Expert), AWS (Proficient), AKS, Virtual Machines, App Services, Lambda, Storage, and other services.

Security Frameworks: Azure Policy, RBAC, Entra ID, IAM, PIM, Monitoring, Sentinel, and others.

Automation Tools: Terraform, ARM Templates, Ansible

Languages: Python, PowerShell, .NET, and related technologies

Certifications: Implementing Microsoft Azure Infrastructure Solutions; Architecting Microsoft Azure Solutions; Terraform Associate, Security and Compliance
